

'FITZY' GIVEN FREEDOM

(By Associated Press.)
Chicago, Sept. 10.—George W. Fitzgibbon, accused by the state authorities of the theft of \$175,000 from United States sub-treasury here, was freed by Judge Chedlin today.

Passed Examination Successfully.
James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by my best physician for diabetes, but did not improve. I took Foley's Kidney Remedy. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance. Foley's Kidney Remedy cures backache and all forms of kidney and bladder trouble. C. R. Renfro.

AUTOBUS DUBBERS

Cincinnati, Ohio, Sept. 11.—When a Cincinnati auto race meets ever held in Ashland, is scheduled to begin tomorrow at Lakonia. Names which are famous in the calendar of the sport—Bentley, the top-notchers in the game—will be on hand to compete for supremacy, while cars of horsepower which were never dreamed of years ago will circle the track in record time. Oldfield, Soules, Christie and other noted drivers will furnish the card, so that it promises to be a meet at which caution will be thrown to the winds and the most nervy pilot will be the one who will receive not only glory but gold for risking life and limb.

Millions of bottles of Foley's Honey and Tar have been sold without any person ever having experienced any other than beneficial results from its use for coughs, colds and lung trouble. This is because the genuine Foley's Honey and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine C. R. Renfro.

Agents Wanted.
To sell "They Play While They Learn" \$2.50 per day is an easy mark for an industrious lady to earn each day. Call on or address:
C. F. HERRY,
Cottage Hotel, Guthrie, Okla.

NERVOUS EXHAUSTION

A Disorder That, If Not Corrected, Speedily Wrecks the General Health.

Another Example of the Close Dependence of the Nerves Upon the Blood and an Indorsement of the Tonic Treatment.

Nervous exhaustion early shows itself in the decreased activity of the organs that normally cast out the waste products of the body. The kidneys, skin and bowels are deprived of some of their energy and a part of the poisonous waste materials, which they readily pass off during health, are turned back into the blood.
The result is plain. The blood filled with impurities is unable to give even its usual amount of nourishment to the nerves and a general breakdown follows. This is the explanation of the depressed and irritable feeling, pallor, loss of spirits, headaches, shortness of breath, and poor digestion of the nervous sufferer.

The tonic treatment for nervous troubles, by building up the blood and supplying it with added oxygen, burns up and casts off the impurities and gives to the nerves the elements they need. And in no other way can these elements be conveyed to the nerves except through the blood.

Mrs. Emma Hayes, of 531 South Tenth street, Grand Rapids, Mich., says: "Six years ago I was nearly a nervous wreck from overwork while teaching school. My appetite was variable and the food I ate did me no good. There were such pains in my legs that I could not stand. My eyes ached and were sore and I had severe pains in the back of my head. I did not know what a night's rest was and grew pale and thin. I lost in weight, was weak and discouraged. The doctors said I kept on teaching school I would have nervous prostration."

"Off and on for seven years I was under doctors' care, but grew weaker and weaker. A friend told me of Dr. Williams' Pink Pills and I am glad to say that they helped me in a short time. I continued the treatment and was entirely cured."

Every sufferer from nervous troubles should send today for our free pamphlet, "Nervous Disorders, Their Nature, Symptoms and Treatment."

Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

PARTICULARLY PERTAINING TO THOSE ON SICK LIST

C. H. Martindale was in his ill at his home with appendicitis for the past two weeks has recovered sufficiently to sit up.

Mrs. Opal Tallich is convalescing from a week's illness.

Weinberger's Smokery carries the best line of high grade smoking tobacco in the city.

STATE DEMOCRATIC PLATFORM

We, the representatives of the Democracy of the State of Oklahoma, in state convention assembled, affirm our belief in, and renew our allegiance to the principles of the party, cognizant of the increasing signs of the awakening of the public conscience throughout the nation on account of the depredations and encroachments of predatory wealth not only upon the political but also economical and industrial rights of the people, take pride in that the Democratic party of the Republic has aligned itself in the pending national political contest with the cause of the people, for the remedying of such wrongs.

In the early life of our national existence in the contest between centralized power and the rights of the masses, the necessity for the existence of the Democratic party arose and with the approval of the people Thomas Jefferson, its founder, was placed at the head of the administration of our national government, announcing the doctrine of equal rights to all and special privileges to none. There never was a time in our history when the application of this doctrine was more necessary, and it can never be truly applied, except when the people rule, not only in letter but in spirit.

A long suffering people in the two territories, when they came into their own, by securing the right to govern themselves, in adopting the constitution of this state, readily embraced the opportunity to write in such law, principles by which the people only, and not the few, should rule. There were prophecies of dire commercial and economic disasters as the result of its adoption and application, though coincident with such adoption and approval, by the manipulation of this same predatory power, a great panic was precipitated without any cause for existence, and the Roosevelt administration, contrary to their claim, that panics came only under Democratic rule, yet, we are proud to say that we have our commensurate share of prosperity, under such constitution, laws and Democratic government, notwithstanding such panic.

Adhering to the Jeffersonian idea that the people have the capacity as well as the inherent right to rule, the Democratic party stands for the election of United States senators by direct vote of the people, and in pursuance of that idea who Democratic members of the first legislature of the state of Oklahoma memorialized congress to submit an amendment to the Constitution of the United States, requiring the United States Senators to be so elected; and we endorse and commend the Democratic members of the United States senate and house of representatives from Oklahoma, for introducing measures in each house of congress, submitting such amendment, and we charge the responsibility for its defeat to the congress which is now, and has been for the past four years, Republican in both houses.

In the recent primary the Democratic nominee for the United States senate received more than 46,000 votes and the Republican 26,000 votes.

The demand of the Republicans in their state platform, adopted Aug. 29, 1908, to place the name of "Bryce" as the nominee on the official ballot in either a sweeping bluff or a cheap trick, with the sinister design and purpose of invalidating the election this Fall and withholding the electoral vote of Oklahoma from Mr. Bryan, the splendid standard bearer of Democracy, and thus aiding in the election of Mr. Taft, the confessed enemy of self government and the proved enemy of the man who told:

"We congratulate the Democratic party for the inserting in our constitution the two-cent fare provision on railroads in this state, and the placing of the same into practical operation. Such operation shows that it has come to stay. The railway reports for the fiscal year 1908 show that the passenger earnings under the two-cent basis is in excess of that of the previous year under the three-cent fare basis. By this provision alone, the Democratic party has made an annual saving to the people of Oklahoma more than the taxes necessary to support the state government."

We congratulate the Democratic administration now in power in the state of Oklahoma, for having administered the affairs of the said state at less than two thirds of the expense at which our Republican sister state, Kansas, is being administered, the same being practically equal in area and population.

We point with especial pride to the following laws enacted by the legislature:

First—The creation of a banking board, and the depositors' guaranty fund, making a bank deposit in the state of Oklahoma as good as cash in hand, and thereby bringing into this state from neighboring states, deposits equal to 10 per centum of all of the money owned by the people of our state.

Second—Making provision for the loan of school moneys of the state upon high class securities, and giving preference for the same to the farmer of our state.

Third—The enactment of a state printing board and state printing system by which the price of statutes of the state are reduced from \$21.00 to \$2.60, and the Session Laws from \$3.00 and \$5.00 to \$0.50.

Fourth—The enactment of a separate coach law for white and colored races.

Fifth—The enactment of a primary election law by which the people choose their own candidates and through which candidates for the United States senate must pass the expression of the will of the people.

Sixth—The initiative and referendum act is the most complete and finished product of the kind ever written into law.

Seventh—The anti-lobbying law which prevents and punishes corruption before legislatures, board of county commissioners, city councils and

boards. To make ample provision for the punishment of public officers for any and every offense from receiving bribes, and other crimes, and other crimes in this state.

Ninth—The graduated land tax prevents land monopoly in the state.

Tenth—The graduated inheritance tax, placing proper burdens upon large estates.

Eleventh—The enactment of the gross receipts tax upon oil, gas, express, telephone, and other companies owning intangible property and incomes, required them to pay their just portion of revenue.

Twelfth—For the enactment of the eight hour provision for labor in the public service.

Thirteenth—For having provided for a full state government and the purchase of state supplies at one-half the cost of the state of Kansas for inferior service.

Fourteenth—For having enacted a complete system of agricultural and mechanical education for the children of the state. The same being the most complete and thorough of any state in the Union.

We commend the legislature of Oklahoma for passing the separate school law which provides for separate schools for the white and negro races. We further endorse the provision permitting the negroes to select their own school trustees from their own race, for their own separate schools; at the same time the converse to be natural that the white race, which in this state, at the ballot box, before the contract of purchase shall become effective.

We favor the fullest developments of such land in the interest of the schools and charitable institutions and in the production of the cheapest fuel for the people of such state.

We favor, as soon as possible and practicable, the sale of the surface of such segregated coal and asphalt lands in small tracts to actual settlers.

We strongly oppose the passing of the timber lands and other natural resources of this state into the hands of private monopolies.

We believe that the various federal bureaus in this state should be immediately reorganized.

We believe that the status of those mentally incompetent, of whatever race, should be protected by our state courts.

We believe that it is of the greatest importance in the development of our state to give perfect safety and assurance to invested capital, and that where complete security is afforded, capital will find its way to us, at the lowest rate of interest. We draw a broad line of distinction between capital invested in honest enterprises and predatory capital engaged in conspiracy against the people and the proceeds of the labor of the American people. We oppose those crafty corporations which are so skillfully and secretly engaged in the raising of arbitrary prices on the necessities of life, and on those things which are produced by our people. We do not intend to encourage predatory capital in this state. We do intend to protect our people in the proceeds of their honest labor. We favor especially care for the protection of the rights and interests of the laboring people, such as farmers, miners, the artisan, the small tradesman and the women and children of this state.

We favor the speedy development of all our natural resources and especially of our oil and gas region.

We favor the development of every form of manufacture, for which our natural resources so well qualify the state.

We recognize the education of the people as absolutely essential to the development of this state, and to the continuance of supremacy of the Democratic party. We pledge the party to vigorously promote in every reasonable way our public school system, so that this state shall stand in the front rank in the educational order.

We pledge the people of this state to a continuance of an economical and faithful administration of its affairs and that the state taxes shall be as low as possible for the conduct of a state government properly conducted.

Believing in the Jeffersonian principle of Democracy that the people should rule, and in pursuance to such belief, we have incorporated the principles of initiative and referendum into our organic law, and with commendable fidelity, the legislature having enacted the necessary laws to carry the same into effect, not only as to state, but also as to county, municipal and district government, when such provisions are submitted to the people under the initiative or referendum features, it is to be done with a view that the voter shall express his

individual judgment, under his conscience, untrammelled by partisan declaration, and to that end we declare a vote upon an initiative or referendum proposition is not to be a test of one's party loyalty.

We reiterate, that as soon as possible and practicable the lands held by this state for educational and other purposes, should be sold upon terms that shall be absolutely fair to the people of the state, reserving the preference right to the lessee, as provided by the constitution, to the end that such land shall become taxable and become more productive to the actual owner thereof, and thereby increase home-owning. We pledge that the funds derived from the sale of such lands shall be faithfully preserved and invested as provided in the Constitution.

We believe that the present state schools should be maintained and that other schools and state institutions should be established equitably throughout the state and we commend the state administration for its zealous effort to organize the common schools to the remotest districts of the state.

The Democratic party has ever heeded the voice of the people as expressed at the ballot box, and as the people declared for state-wide prohibition, we congratulate the legislature for enacting a law vitalizing and supplementing in a practical way the constitutional provision relating to prohibition, and we commend the state administration for its vigorous and rigid enforcement of such law, and pledge the continuance of the same. The constitution already provided that the legislature might create agencies under the supervision of the state, for the sale of liquor for medical and scientific purposes; the legislature, in good faith, enacted such a law, in view of not only facilitating the enforcement of prohibition, but also to carry out every provision of the constitution relating to this subject.

The Democratic party, under the referendum provisions of the constitution, has submitted the agency proposition for the approval or rejection of the voters at the ballot box. We commend the legislature, not only for passing such law, but also for submitting the same to the individual judgment of the people for their ratification or rejection.

We commend the first legislature of Oklahoma for the faithful fulfillment of its pledges to the people. It was not to be supposed that at its first session it was physically possible or practical to pass every law necessary to carry into effect all the provisions of the constitution or that the public necessity required, and it was not to be expected that their work would be that of perfection.

We pledge the people that the Democratic party of the state will continue the enactment of laws until every provision of the constitution is made effective and that wherever the laws that may have been passed may prove to be defective that the same will be amended by the friends of the people and not by their enemies.

We re-affirm the principles and declarations of the state platform of 1907, adopted at Oklahoma City, and of 1908, adopted at Muskogee and endorse the National platform adopted at Denver in July last.

We congratulate the people of the state of Oklahoma upon the administration of all the state officers, the executive, including all the departments thereof, the corporation commission, the supreme court, and all courts of inferior jurisdiction.

VIRGINIA SOCIETY LOOKS SPORTY
Petersburg, Va., Sept. 11.—The annual horse show, an important event in society, opened here today to continue for a week. Large crowds were in attendance at the opening. The show is one of the very best ever held here.
